Case NO 1:12-cv-00185-  
-DL-

Dear Mr. Clerk;

In my motion I  
object to the State requests for more time.  
This is just another way the respondent tactical  
confusion. I have all the copies the respondent  
talking about that in court, the transcript of  
this case, Notice of appeal is already in their  
hands, and the "NHSC" decision, 2009 0140.

Within a week or so, I would try to file  
these documents with this court. The respondent  
is asking for sixty days when I'm the one who's  
doing their time. This is the games that the State  
been playing with me. The State had no idea  
that I will challenge my conviction. I hope  
the Court would see through these pretexts

1 of 1 acts by the respondent from the start of  
this case when I file the transcript later

this week.

if you have any Question, Please  
write me at any time.
